

CONTENTS

Preface	xi
Chapter 1 INTRODUCTION	1
1.1 Fiber Bragg Gratings	1
1.2 Historical Perspective	3
1.3 A New Era: Externally Inscribed Bragg Gratings	4
1.4 Outline of This Book	6
References	6
Chapter 2 PHOTSENSITIVITY IN OPTICAL FIBERS	9
2.1 Introduction to Photosensitivity	9
2.2 Photosensitivity in Silicon-Based Optical Fibers	10
2.3 Anisotropy in the Photoinduced Index Change	16
2.4 Point Defects in Silicon Glass	19
2.5 Point Defects in Germanium-Doped Silica (Germanosilicate) Glass	20
2.5.1 The Defect Precursors	25
2.6 Enhanced Photosensitivity in Silica Optical Fibers	43
2.6.1 Hydrogen Loading (Hydrogenation)	43
2.6.2 Flame Brushing	49
2.6.3 Co-doping	51
2.7 Photosensitivity at Other Writing Wavelengths	52
2.7.1 ArF Excimer Vacuum UV Radiation at 193 nm	52
2.7.2 Near-UV Irradiation at 334 and 351 nm	57
2.7.3 Photosensitivity at 157 nm in Germanosilicate Fiber	58
2.8 Photosensitivity Mechanisms	59
2.8.1 Color-Center Model	60
2.8.2 The Electron Charge Migration Model	66
2.8.3 Permanent Electric Dipole Model	67
2.8.4 Ionic Migration Model	68

2.8.5	Soret Effect	68
2.8.6	Stress-Relief Model	69
2.8.7	Compaction/Densification Model	69
2.8.8	Raman Spectroscopy of Germanosilicate Fibers	76
2.9	Photosensitivity: Co-dopants and Other Fiber Types	78
2.9.1	Nitrogen Co-doping	78
2.9.2	Germanium-Free Silicon Oxynitride Fiber	79
2.9.3	Phosphorus-Doped Fibers	80
2.9.4	Rare-Earth Doped Fibers	80
2.9.5	ZBLAN Fluoride Glass Optical Fibers	80
2.9.6	Aluminosilicate Optical Fibers	81
2.10	Maintaining the Index Change	82
	References	83

Chapter 3 PROPERTIES OF FIBER BRAGG GRATINGS 95

3.1	Simple Bragg Gratings	95
3.2	Uniform Bragg Grating Reflectivity	97
3.3	Strain and Temperature Sensitivity of Bragg Gratings	98
3.4	Other Properties of Fiber Gratings	100
3.4.1	Cladding and Radiation Mode Coupling	102
3.4.2	Apodization of Fiber Gratings	103
3.5	Types of Fiber Bragg Gratings	105
3.5.1	Common Bragg Reflector	105
3.5.2	Blazed Bragg Grating	106
3.5.3	Chirped Bragg Grating	108
3.6	Photosensitivity Types of Fiber Bragg Gratings	110
3.6.1	Type I Bragg Gratings	110
3.6.2	Type IIA Bragg Gratings	111
3.6.3	Type II Bragg Gratings	111
3.7	Novel Bragg Grating Structures	113
3.7.1	Superimposed Multiple Bragg Gratings	113
3.7.2	Superstructure Bragg Gratings	114
3.7.3	Phase-Shifted Bragg Gratings	114
3.8	Pulse Propagation in Gratings	116
3.8.1	Ultrashort Pulse Propagation Through Fiber Gratings	116
3.8.2	High-Intensity Pulse Propagation in Bragg Gratings	120
3.8.3	Weak Nonlinear Regime, Intermediate Intensity	123
3.8.4	Strong Nonlinear Regime, High Intensity	123
3.9	Lifetime and Reliability of Fiber Bragg Gratings	124
3.9.1	Thermal Decay of Fiber Bragg Gratings	125
3.9.2	Mechanical Strength of Fiber Bragg Gratings	135
3.10	Incoherent Scattering Loss From Fiber Bragg Gratings	140

3.11 Long Period Gratings	142
References	143

Chapter 4 INSCRIBING BRAGG GRATINGS IN OPTICAL FIBERS 149

4.1 Internal Inscription of Bragg Gratings	149
4.2 Interferometric Fabrication Technique	150
4.2.1 Amplitude-Splitting Interferometer	150
4.2.2 Wavefront-Splitting Interferometers	153
4.3 Phase-Mask Technique	154
4.3.1 Stitch Error in Phase Masks	158
4.3.2 Changing the Phase-Mask Periodicity	159
4.4 Point-by-Point Fabrication of Bragg Gratings	162
4.5 Mask Image Projection	164
4.6 Laser Sources	165
4.6.1 Laser Sources for Interferometric Techniques	165
4.6.2 Laser Source Requirements for Noninterferometric Techniques	169
4.7 Special Fabrication Processing of Gratings	170
4.7.1 Single Pulse Inscription of Fiber Gratings	170
4.7.2 Bragg Grating Inscription During Fiber Drawing	173
4.7.3 Long Fiber Bragg Gratings with Complex Reflectivity Profiles	176
4.7.4 Chirped Gratings	179
4.7.5 Phase-Shifted Gratings	182
4.7.6 Apodization of Gratings	183
4.8 Hydrogenation	183
4.9 Fabrication of Bragg Gratings Through Polymer Jacket	185
References	185

Chapter 5 FIBER BRAGG GRATING THEORY 189

5.1 Introduction	189
5.2 Coupled-Mode Theory	191
5.2.1 Bragg Gratings	193
5.3 Two-Mode Coupling in Nonuniform Gratings	197
5.4 Tilted Gratings	205
5.5 Cladding-Mode Coupling	208
5.6 Radiation-Mode Coupling	210
5.7 Long Period Gratings	211
5.8 Rouard's Method	216
5.9 Bloch Waves	218
5.10 Nonlinear Grating Effects	220
5.11 Discussion	221

References	221
Chapter 6 APPLICATIONS OF BRAGG GRATINGS IN COMMUNICATIONS	223
6.1 Introduction	223
6.2 Fiber Lasers	224
6.2.1 Erbium-Doped Fiber Laser	224
6.2.2 Single-Mode/Single Frequency Fiber Lasers	229
6.2.3 Cladding-Pumped Fiber Lasers	241
6.2.4 Fiber Raman Lasers	243
6.2.5 Mode-Locked Fiber Lasers	244
6.3 Fiber Amplifiers	246
6.3.1 Fiber Bragg Gratings in Erbium-Doped Fiber Amplifiers	247
6.3.2 Gain Equalizers and Gain Control	247
6.3.3 Fiber Raman Amplifiers	250
6.4 Fiber Bragg Grating Laser Diodes	252
6.4.1 Single-Mode Operation	253
6.4.2 Mode-Locked Operation	255
6.4.3 Coherence-Collapsed Operation	256
6.5 Basic Band-pass and Other Types of Fiber Bragg Filters	257
6.5.1 Basic Bragg Grating Filter	258
6.5.2 Circulator-Based Filters	258
6.5.3 Interferometric Band-pass Filter	259
6.5.4 Moiré Gratings Filters	260
6.5.5 Phase-Shifted Grating Filters	260
6.5.6 Fabry-Perot Etalon Filters	261
6.5.7 Comb and Superstructure Filters	261
6.5.8 Blazed Filters	262
6.5.9 Grating-Frustrated Coupler Filter	262
6.5.10 Long Period Grating Filters	262
6.6 Wavelength Division Multiplexers/Demultiplexers	263
6.6.1 Fused Fiber Splitter Bragg Grating WDM	263
6.6.2 Interferometric Wavelength Division Multiplexer	264
6.6.3 Noninterferometric Wavelength Division Multiplexer	267
6.7 Dense Wavelength Division Multiplexing	272
6.8 Dispersion Compensation	274
6.8.1 Dispersion Compensation from Reflective Bragg Gratings	274
6.8.2 High-Bit-Rate Long Distance Transmission	276
6.8.3 Multichannel High-Bit-Rate Long Distance Transmission	279
6.8.4 Dispersion Compensation in Transmission of Bragg Gratings	280
6.9 Temperature Sensor in a Passive Optical Network	285
6.10 Optical Fiber Phase Conjugator	287

6.11	Phased-Array Antenna Beam-Forming Control	288
6.11.1	Analysis Time Delay Beam Former	289
6.11.2	Examples of Phased-Array Antennas	290
6.12	Summary	293
	References	294
Chapter 7 FIBER BRAGG GRATING SENSORS		301
7.1	Introduction	301
7.2	Sensing External Fields	302
7.2.1	Pressure Sensitivity	302
7.2.2	Dynamic Magnetic Field Sensitivity	303
7.3	Wavelength Demodulation of Bragg Grating Point Sensors	304
7.3.1	Quasi-Static Strain Monitoring	305
7.3.2	Dynamic Strain Sensing	324
7.3.3	Simultaneous Interrogation of Bragg Gratings and Interferometric Sensors	330
7.4	Simultaneous Measurement of Temperature and Strain	330
7.4.1	Principle of Operation	332
7.4.2	Extrinsic Temperature Compensation	333
7.4.3	Intrinsic Temperature Compensation	334
7.5	Polarization Stability of Interrogation Schemes	338
7.6	Multiplexing Techniques	339
7.6.1	Wavelength Division Multiplexing (WDM)	340
7.6.2	Time Division Multiplexing (TDM)	342
7.6.3	Spatial Division Multiplexing (SDM)	344
7.6.4	Combined SDM/WDM/TDM	344
7.7	Sensors Based on Chirped Bragg Gratings	345
7.7.1	Broadband Chirped Grating Sensor	345
7.7.2	Tapered Chirped Grating Sensor	347
7.7.3	Asymmetrically Chirped Grating Sensor	348
7.7.4	Intragrating Sensing	348
7.8	Distinguishing Bragg Grating Strain Effects	353
7.9	Bragg Grating Fiber Laser Sensors	355
7.9.1	Single and Multipoint Bragg Grating Laser Sensors	357
7.9.2	Ultra-High Resolution Bragg Grating Laser Sensor Demodulation	358
7.10	Bragg Gratings as Interferometric Sensors and Reflective Markers	360
7.10.1	Reflectometric Sensing Arrays Using Bragg Reflectors	360
7.10.2	Nested Fiber Interferometers Using Bragg Reflectors	362
7.10.3	Bragg Grating-Based Fabry-Perot Sensors	364
7.10.4	Collocated Fabry-Perot Cavities with Wavelength Addressable Cavity Lengths	365
7.11	Other Bragg Sensor Types	366

7.12 Applications of Bragg Grating Sensors	366
7.12.1 Introduction to Aerospace Applications	366
7.12.2 Bragg Grating Sensors in Marine Applications	373
7.12.3 Applications to Civil Engineering Structural Monitoring	376
7.12.4 Bragg Gratings for Medical Applications	381
7.12.5 Bragg Sensors Within the Nuclear Power Industry	385
7.12.6 Applications to Power Transmission Lines	386
7.12.7 Other Applications	388
References	389
Chapter 8 IMPACT OF FIBER BRAGG GRATINGS	397
8.1 Introduction	397
8.2 Importance of Fiber Bragg Gratings to Global Communications	397
8.3 Commercial Prospects of Fiber Bragg Grating Sensors	400
About the Authors	405
Index	406
